

FOX

GROUP

**A MULTIFACETED COMPANY, SPECIALISING IN ALL ASPECTS OF THE CONSTRUCTION
INDUSTRY INCLUDING HAULAGE, PLANT HIRE, EARTHWORKS, RECYCLING, WASTE DISPOSAL
AND A WIDE VARIETY OF OTHER SERVICES**

WHO ARE FOX GROUP?

AN INTRODUCTION TO OUR GROUP

A NATIONAL ORGANISATION PROVIDING ESSENTIAL SERVICES TO THE CONSTRUCTION INDUSTRY

Over the years **Fox Group** has expanded greatly—collaborating with many respected names to provide collaborative services across the UK. We have a range of services to offer which can be found within this brochure or on our website—www.Foxgroup.co

The **heart of the business will always be in Blackpool**—serving and supporting the nation from our roots. Our bases stretch from Newcastle to the South Coast, and across to the Isle of Man. We operate quarries, tips, landfill, recycling and waste recycling yards, a railhead and ships all over the country. From locals to corporate building companies, no job is too big or small. When you choose our products, you can be assured of **quality** and a **fair price**.

At Fox Group we are passionate about **modernising the construction service and haulage industry through a focus on sustainability and de-carbonisation**. We take active responsibility to monitor and improve on our carbon footprint. Due to the nature of our work in regards to payloads and terrain we make the changes we can to be greener. In recent years, the group have made a conscious effort to cut their carbon emissions. Pioneering within our industry, our chief executive **Paul Fox** was labelled 'change-maker'

for individuals leading a 'green revolution' in a bid to help reach the sustainability goal of **Carbon Net Zero by 2050**.

Our extremely successful wash plant at J.A Jackson and our Leyland railhead further enhance the sustainability initiatives.

Being **family owned**; our work force are part of one big family working with **passion, trust and reliability**. In an industry that traditionally relies on a high proportion of agency staff, we are proud to create secure jobs for our team. We **value our team** and always aim to **employ locally**. We employ people of all ages and backgrounds - providing a fair chance for all.

- Northern Transport Rewards Northern Tipper Operator of the Year 2022
- Thompsons Tipper Awards - Tipper Operator of the Year 2022

THE UK'S FIRST ELECTRIC TIPPER WAGON

INSIGHT FROM PAUL FOX

In June of 2022, Fox Group took delivery of two Volvo FE Electric 6x2 tippers. We were the first to take this step in the UK and the second in Europe. Although a **massive investment** for the company, the experience has been a learning curve—holding both advantages and disadvantages.

The **environmental benefits** of the trucks support our drive towards carbon net zero, which we have invested in heavily in the past couple of years.

Our **supply chain have also benefited:** with a lot of our contractors wanting the EV's working on their sites—ticking the box for their own carbon net zero policies. We know there is a definite drive within the construction industry for net zero.

However, as good as the wagons are for the environment; there are few challenges that come along with such a new development.

Ground clearance was an issue in the beginning; the batteries are low to the floor meaning **access to limited sites**, so it took meticulous planning. We had meetings when ordering the trucks to discuss range and expectations of the trucks, requiring them to do seven loads a day within 20 miles of our Leyland site, but, as many with electric vehicles may know, conditions must be perfect.

Range can be drastically reduced through hilly routes and adverse weather conditions, and with being in the UK, this isn't ideal. Wipers, heaters and lights all draw massively from the range, meaning that the trucks can't carry out their full days work, and we have to swap things round due to outstanding loads.

The **UK charging infrastructure isn't ready for the government targets.** We're struggling with queues for chargers at service stations nowadays, imagine trying to electrify our 300 trucks. It definitely doesn't seem possible within the next ten years.

To plan ahead for potential charging issues: we enquired about four additional chargers at our Leyland site, where the electric trucks are based. This would require us to upgrade our electricity supply which would have cost £40,000-£50,000. We run around 300 trucks and at the weekend and have about 160 wagons at Leyland, there's no way we could charge them all. We'll keep these tippers on the fleet for approximately three years before upgrading, hopefully things will have evolved.

We don't regret becoming an EV pioneer despite some of the hurdles we have faced.

We are keen for further development and will continue to evolve with the EV Wagons, making greener choices and having a **positive impact on our environment.**

FOX BROTHERS

HAULAGE | AGGREGATES | RECYCLING | CONTRACTING | CONCRETE | RAILHEAD | SHIPPING & STEVEDORING

HAULAGE SPECIALISTS WITH 90 YEARS EXPERIENCE

Founded in 1932, we specialise in **supply and haulage of aggregates, recycled materials, muck shift and earthworks**. Continuing to grow we use the latest industry technology with highly skilled operators for quality assured service.

With **over 110 units**, the fleet is specially equipped with **modern technology**. All vehicles have an on-board GPS tracking system, extensive telematics, on board weighers, automatic sheeting system and 360 degree cameras. With 95% of the fleet being less than three years old, we ensure the fleet is performing efficiently and maintained to the highest standard.

Achieving and maintaining accreditations such as our **FORS Gold** and ISO 14001 ensures we as a company are constantly working to be more environmentally responsible across all our operations. Our FORS Gold accreditation requires all our drivers to undertake training, both theory and practical to achieve best practice in terms of environmental protection.

Monitoring of fuel usage, driving behaviour and fleet efficiency is also required as proof of **minimising the CO2 emissions on a month by month basis**.

We regularly review our business operation and utilise various third-party sources including the Road Haulage Association, to ensure we keep up date with emerging environmental issues.

Our transport management system and vehicle tracking ensure our transport department operates efficiently, thereby reducing our environmental impact as well as providing an excellent service to our customers.

Recent acquisitions of several walking floor trailers have allowed the company to venture further into recycling and landfill contracting works. Further fleet expansion is planned for the future.

FAIR CHANCE

We are proud to have developed a partnership with HMP Kirkham Prison to create 'The Fox Route' to **employ ex-offenders**. Each person who is accepted onto the programme receives **dedicated training** that covers health and safety as well as hands on training for the specific vehicle they will be operating. They must pass a theory and practical examination to gain their certification.

The Construction Plant Competence Scheme (CPCS) is a nationally recognised qualification that allows the individual to work on any construction site. This is a real **transferable skill** and a lifeline for many. Those who are successful will be **paid at the same rate** as any other qualified plant driver. The victim surcharge will apply. Fox Group will continue to **support** every individual upon release and will assist them in gaining further qualifications so they can become qualified to operate multiple vehicles.

INSPIRING THE YOUNG GENERATION

At Fox Group we are **keen to inspire our local younger generation**. By making visits to schools, as a local employer, we hope to connect and present the different options available to them after school. We understand how difficult it can be to choose a path after school therefore we are eager to share our experiences with the students in the hopes of **making an impact**.

We strive to **break the stigma around our industry**. The days of it being the place for under achievers or bad kids to go are long gone. With new and emerging technology being increasingly used in the construction industry, **opportunities are vast** and we aim to inspire the career path of our local young generation.

HAULAGE

We can deliver numerous quantities:
18T loads - 8-Wheel Tippers (surcharge may apply to loads <18T)
28T loads - Artic Tippers
16T loads - EV Trucks
Volumes of 130m³ - Walking Floor Trailers

Heavy haulage and abnormal loads are **our speciality, taking the most difficult of loads** to the most awkward of delivery destinations. Our specialist vehicle and trailer fleet provides articulated combinations of 44T, 65T & 80T gross. Our 3 and 4 axle step frames are capable of extending and rear steering—adding manoeuvrability.

We organise the **safest route** and provide an escort vehicle and driver where and when required. The escort and the lorry drivers are in constant contact and are fitted with a **GPS tracking system**.

We provide transport of single or multiple pieces as well as making multiple pickup and deliveries. Fox Brothers is a **registered waste carrier**. This license indicates our duty of care in transporting materials and waste.

AGGREGATES

Offering both **regular and recycled** aggregates: we operate our recycling facility to **process and recycle waste products** into quality, certified aggregates. The yard is run using crushers and our own fleet of plant machinery to sustain high quality aggregates.

Recycled aggregates **improve the sustainability** and reduce costing of any project—providing an **economical and environmentally friendly** alternative to quarried material. All our recycled products meet British standards.

AVAILABLE PRODUCTS:

- Certified Screened
- Topsoil
- Type 1 MOT
- Clean Limestone
- Certified Crushed 6F5
- Gabion Stone
- 10mm / 20mm Pipe
- Bedding
- Road Planings
- Top Rock
- Gritstone
- Ballast

CONCRETE

All concrete is ready mixed locally by our batchers and can be supplied in small and large concrete loads for delivery nationwide. We can design mixes or mix to specification and provide pumping services.

Our specialist team can offer **free technical advice** and concrete cube testing done on site. We also accept cash sales.

CONTRACTING

We regularly undertake **quarry and demolition works** and process all types of hardcore on all matter of recycling operations and demolition contracts. We also carrying out regular sub-contract crushing, screening, recycling and earthwork operations for contractors primarily throughout northern England but also cover across UK dependent on contracting works. Our plant ensures maximum production outputs and accessibility to all sites.

Our crushers and excavators are available with CPCS trained operatives, to load, stockpile and process raw material with a full range of attachments as required and we can also supply dust suppression canons where needed.

SERVICES INCLUDE:

- Land Remediation
- Contact Crushing
- Bulk Excavation
- Groundworks
- Landscaping
- Demolition

FOX PROPERTIES

At Fox Properties we have a range of **residential and business units** as well as **offices** to rent. We cover all of the North West.

Our available properties are updated on our website.

WE OFFER:

- Business spaces
- Residential spaces
- Offices spaces

SHIPPING & STEVEDORING

December 2021 saw Fox Brothers take over the Stevedoring operations at **Glasson Dock** in North Lancashire.

Through our extensive network of British and European ship owners, brokers, agents and port authority contacts. We offer chartering/brokering services to anyone wanting to move dry bulk cargo by sea, **throughout the UK and across Europe.**

We can load and unload shipped cargo, including animal feed and food produce (we are TASC approved). Not only are we the stevedores at Glasson Dock, but we are also able to **complete the transportation to the required destination.**

Recently we have utilised our shipping to deliver plant to our **Isle of Man depot**—broadening our customer base and expanding the ground we cover. Alongside our railhead we are utilising all avenues of **inter-modal haulage**, Fox Maritime allows shipment of materials and plant around the UK, across to the Isle of Man and even possibilities to deliver in Europe.

We are consistently improving our carbon footprint and working toward the sustainability goal of Carbon Net Zero by 2050.

OUR PROFESSIONAL SERVICES INCLUDE:

- Ship Brokering
- Integrated Haulage
- Collection and Delivery
- Journey Planning
- Weighbridge Facilities
- Material Management
- Waste Transfer

1800T

MOVED BY

RAIL

EQUAL TO

95X

The Freightliner train held 1,800 tonnes of material, the equivalent of 95 x 8 wheeler loads. The material was then distributed out to customers via the groups wagons to complete delivery.

CREATING A SUSTAINABLE FUTURE WITH HAULAGE

We utilised existing railhead sidings within Leyland to create a greener alternative for haulage. The railhead sidings were initially built in 1953 and were relayed in 2018 for storage during the Blackpool electrification scheme.

Utilising the railhead allows the group to further enhance sustainability initiatives. Rail allows larger amounts of material to be delivered in a much more efficient and greener way.

Typically rail haulage generates around 30% of CO2 emissions of road haulage per equivalent journey – and nearly 90% less small particulate matter (PM10) and up to fifteen times less nitrogen oxide (NOx).

Local communities benefit from the reduced air and noise pollution as fewer trucks are passing through the towns. Railways are generally segregated from residential areas and take less land than roads.

We are making a conscious effort to cut our carbon emissions by using electric wagons, electric plants and now by utilising the railhead we are able to transport our aggregates in a much more sustainable way.

Not only has this helped our sustainability goals but it has kept the tradition of the Leyland railhead going and has brought a boost in business right across Lancashire and the local economy.

OVER 50 YEARS EXPERIENCE IN THE INDUSTRY

We are a premier **supplier of plant machinery** with an extensive knowledge and practical experience in the construction industry. September 2020 was a landmark occasion: Fox Brothers acquired Hurt Plant Hire creating Fox Group. Making us one of the largest hauliers of aggregates, recycled materials and earthworks nationwide. We have built an excellent reputation for providing a consistently **efficient and reliable** first-class service to organisations of any scale.

Our **range is vast**, with a fleet of **over 300 items of plant and 60 wagons**. We have an average fleet age of 3½ years. This, together with our dedicated low loader delivery and maintenance facilities, our commitment to health and safety, and our pool of highly experienced and fully qualified operators enables us to offer our customers a reliable, efficient and first-class service utilising the **latest industry technology**.

PLANT HIRE

We have a range of plant for hire that meet many different project needs.

- Backhoe Loaders
- Screeners
- Crushers
- LGP Excavators
- Long Reach Excavators
- Loading Shovels
- Traxcavators
- Large Excavators
- Dump Trucks
- Site Dumpers
- Telehandlers
- Tracked Dumpers
- Bulldozers
- Mini/Midi Excavators
- Zero Tail Swing Excavators
- Wheeled Excavators
- Rolling Machinery

HAULAGE

We can supply a wide range of wagons and transporters. All our wagons are fitted with weighloaders, reverse cameras and satellite tracking. These **modern technologies** help our customers safety and allow us to react quickly if help is needed.

- Hook Loaders
- Low Loader Hire – up to 150T
- Rigid
- Road Sweepers
- 6 & 8 Wheel Tippers
- 6 Wheel Grab Wagons
- Big Hook Skip Wagons
- Bulk Tipping Trailers

Full specs can be found on our website.

AGGREGATES

Located at Anglesely and Bacup we can provide a multitude of **locally quarried and recycled materials** to suit every need. We provide to both domestic and commercial customers across the UK and beyond.

- Limestone 40mm- 3inch Clean Filter Stone
- Pipe Bedding (40mm, 20-5mm, A14 etc)
- Limestone Walling Building Stone
- Certified 6F2 Crushed Concrete
- Limestone 10mm Pipe Bedding
- Road Planings (various grades)
- Limestone 75mm Crusher Run
- Top Soil (Screened or As Dug)
- Clean Stone/Filter Drainage
- Licensed Tipping Facilities
- Limestone Rockery Stone
- Limestone 20mm to Dust
- Limestone Quarried 6F5
- Building Sand/Grit Sand
- Limestone 20mm Clean
- MOT Type 1/Sub base
- Agricultural Lime Dust
- Top Soil (Grade 2)
- Recycled MOT
- Walling Stone
- Recycled 6F2

RECYCLED AGGREGATES

As a part of Fox Group we are **committed to the environment** through the **recycling** of as much waste material as possible at our recycling centres in Leyland and Chorley. At these recycling centres **we turn waste into reusable materials giving it new life.**

CONTRACTING

We provide plant equipment with **highly trained**, skilled personnel and equipment for any size of project.

- Pond & Lake Construction / Restoration
- Contract Crushing / Screening
- Waste Management
- Land Remediation
- Bulk Excavation
- Sports Pitches
- Landscaping
- Quarrying

CMP PLANT HIRE

PLANT HIRE | HAULAGE | AGGREGATES | CONTRACTING

PREMIER WELSH PLANT SUPPLIER

The acquisition of Hurt also saw acquisition of CMP based in Anglesey. Established in 1972, we operate in Wales providing the same services as Hurt. We are **service led, providing integrated solutions for plant hire, haulage, quarry and landfill.**

AGGREGATES & CONTRACTING

We offer the same catalogue of materials and contracting services as Hurt Plant Hire. Further details can be found by referring to the 'Hurt Plant Hire' section of this brochure or by visiting our website.

PLANT HIRE

We have a similar range of plants for hire as Hurt, which meets all of our customers needs.

- Crushers/Screeners (Jaw + Impactors)
- Traxcavators Cat 953C-Cat 973C
- Wheeled Excavators (7-20 ton)
- Tractors, Tankers and Trailers
- Zero Tail Swing Excavators
- Tracked Dumpers 5-10 ton
- Long Reach Excavators
- Telehandlers 7-17metre
- Dumptrucks 10-30 ton
- Site Dumpers/Rollers
- LGP Dozers D4-D8
- Excavators (1-5T)
- Backhoe Loaders
- Loading Shovels
- LGP Excavators

MIDLAND SITE SERVICES

PLANT HIRE

PLANT HIRE

As part of Fox Group our fleet is combined, a more extensive list can be found on website.

- Zero Tail Swing Excavators
- Long Reach Excavators
- Mini/Midi Excavators
- Wheeled Excavators
- Screeners/Crushers
- Tracked Dumpers
- Large Excavators
- Backhoe Loaders
- Rolling Machinery
- Loading Shovels
- Dump Trucks
- Site Dumpers
- Telehandlers
- Dozers

RELATIONS WITHIN THE BUILDING INDUSTRY

We offer a wide range of plant for hire. In 2022, **Fox Group took on the yard and customer base** of Midland services. We are ever-expanding and this new base in Willenhall allows us to offer services across the West Midlands

The take over allows expansion of clientele and our service area as a group, creating a new base with the capabilities of providing a first class service to Midland Services existing clients, as well as welcoming new customers.

We run **8 wheeled tipper lorries** all over the West Midlands and have a very good customer base of which include Taylor Wimpey, M Lambe, Laing O'Rourke, M&J Evans, McCarthy & Stone etc.

BLACKLEDGE

PLANT HIRE | HAULAGE

PLANT HIRE SPECIALISTS

Established in the 1970s, we have built a strong track record of service. We operate a fleet of **40 machines and 14 trucks, available 24 hours a day**. Operating from the north west we have a wide range of clients including local authorities, utility companies, the public and private sector and the construction industry.

In 2022, Fox Group has acquired long-established Blackledge Plant Hire. This collaboration strengthens Fox Group's strong position as the north west's largest operator in the sector. Blackledge contributes greatly to the growing fleet and provides **vast experience, quality service** within the group.

We use machinery that is ideal for undertaking the largest muck shift contracts. Our **integrated approach** allows us to help you make a significant **reduction in environmental impact** during construction and agricultural projects.

PLANT HIRE

We operate a **modern fleet** of JCB 3CXs. Providing both **operated or non-operated** construction plant machinery and equipment.

- Bulldozers and Dumpers
- JCB 3CXs
- Excavators (3-20T that can be fitted with hydraulic brakes)
- Rollers

We supply to the **demolition and construction industry** with specialised equipment.

- Hydraulic Concrete Breakers
- Hydraulic Grapples
- Hydraulic Wackers
- Augers

Our **skilled drivers and operators** have a vast range of experience in completing projects efficiently. We also provide **site clearance and muck shift operations**.

HAULAGE

We supply **primary and secondary aggregates** and topsoil, as well as offering site clearance.

Our vehicle movements are minimised on most construction projects through **back load deliveries**. By delivering and uplifting we help **minimise carbon footprint**. With our well-maintained fleet, site clearance and muck shift can be handled without issue.

OUR FLEET:

- 6 wheel tippers
- 8 wheel tippers
- Low loaders
- 32 tonne tipper lorries

OPERATING FOR OVER 25 YEARS

We deliver plant hire services nationwide. Running a fleet of **more than 2,500 machines** out of depots in Blackburn, Keighley and Northwich in the north as well as Southampton on the south coast.

We were acquired by Fox Group in 2022. Fox Group—like B&W—are based on **true and honest values** so this acquisition was a perfect fit. Together as a group we can offer a large amount of plant items to our already significant fleet of plant, tippers, specialist compact equipment and bulk haulage. The geographical spread of B&W's depots expand the reach of Fox Group, increasing our already extensive cover across the UK.

PLANT HIRE

- Hydrema LGP Dump Trucks
- Rollers And Compaction
- Tractors And Trailers
- Telescopic Handlers
- Tracked Dumpers
- Dump Trucks
- Excavators
- Dumpers
- Dozers
- Machine Attachments
- Loading Shovels
- Site Equipment

OPERATORS OF THE SUCCESSFUL WASHPLANT

Established in 1967, we have many years of experience working with civil engineers, construction, housing and development companies, councils, waste disposal companies, local businesses and farmers.

We formed a partnership with Fox Group in 2022 which allows expansion of the groups fleet and operations. Our quarries in Preston, Leyland and Lancaster are within easy reach of the region's motorways providing ease for transit. Our wash plant has made a huge impact on the groups sustainability goals. The wash plant provides a green solution to quarried aggregate and operates at impressive rates.

HAULAGE

We have a wide range of vehicles available to match our customer requirements.

OUR FLEET:

- 4 & 6 Wheeled Cement Trucks
- Roll On Roll Off/8 Wheeled Tipper
- Articulated Tipper
- Hooklift Trucks
- Skip Loaders

MUCK AWAY SERVICE:

We accept a wide range of inert materials for both landfill and recycling at our Leyland and Ellel quarries.

- Appropriate WAC (Waste Acceptance Criteria) testing
- Fully Licensed Waste Transfer Station
- Inert Tipping
- Tipping

AGGREGATE

Working out of sites in Preston, Leyland and Lancaster, we supply quarried and recycled aggregates to both small and large businesses and members of the public.

Collections are available through our weighbridge facilities. Simply bring along a vehicle and/or trailer and we will load and weigh it. Deliveries can be made by tipper load (up to 30 tonnes). **All products can be collected or delivered.**

WHAT WE OFFER:

- Clean Limestone (screened with the fines removed) in sizes 6mm, 10mm, 20mm, 40mm, 40-80 mm and 150mm
- MOT Type 1 (Sized from 40mm down to dust)
- 10mm, 20mm & 4/20mm Washed Gravel
- Washed Fine, Building & Cable Sand
- M Grade Sand Concreting Sand
- Washed Grit Sand
- Grade 1 Top Soil
- Clay

RECYCLED AGGREGATES:

- 6F2
- MOT Type 1
- Capping
- 40mm-80mm Coarse Drainage Stone
- 10-20mm Pipe Bedding
- Washed Fine Sand
- Building Sand
- Concreting Sand
- Washed Grit sand

Wildlife thrives in the restored areas of the quarry at Bradley's Sandpit. Geese have made the area home which is great to see.

CONCRETE

Our ready mixed concrete features :

- Delivery or Collection
- Large or MiniMix Trucks

WASHPLANT

SUSTAINABLE SOLUTIONS FOR PROCESSING AGGREGATE

CREATING A SUSTAINABLE FUTURE

Sustainability is at the heart of J.A Jackson's operations. Our washplant allows us to produce recycled aggregate at impressive rates. CDE designed us a solution which can process over 200tph, resulting in over **10,200 tonnes being washed through the plant each week.**

The **200tph** solution integrates an EvoWash sand wash plant, AquaCycle™ A600 thickener, plus a R4500 primary scalping screen. A weekly tracker of the production is available on Fox Group LinkedIn!

In recent years we have a large demand for our recycled materials. Our single size aggregates and sand are extremely popular, we also produce a recycled Type 1 MOT from the clean oversize from the wash plant, giving a **higher quality product** when compared to dry processing. Trials have shown the **quality to be equal to virgin materials.** 85% of the feed material is re-purposed within the local construction industry, reducing the amount of waste sent to landfill.

Our facility has an abundance of **feed material from the local area**, much of which comes from the 400 tipper wagons which form part of the Fox Groups fleet.

The material is processed through the wash plant and the wagons leave with washed sand and aggregates, so as well as **diverting material from landfill** there are also **less empty transport runs** during this extremely efficient process, with **waste washed and graded within 3 minutes.**

We are located within 45 minutes from the local stone quarries in Cumbria so by increasing capacity we are helping further **reduce carbon footprint of material movements** by providing a source of aggregates to the local construction sector.

MORE THAN

10000T

PROCESSED PER WEEK

ONE OF THE PIONEERS IN PLANT HIRE

Founded in 1965, we work within the **construction equipment hire market**. We provide specialist knowledge in the hire of **compaction equipment** to the construction and civil engineering market. Increasing Fox Groups national reach, we operate from our 8 regional depots. We have depots in Evesham, Andover, Bridgend, Essex, County Durham, Plymouth, Sheffield and Wigan.

Acquired by Fox Group in 2022, we together have a wide range of **modern, well serviced plants for hire**. We are continuously improving, with our latest development being a **remote operated 120 vibratory roller** in 2021. This roller eliminates the need for an operator to be placed in potential danger when having to provide material compaction in enclosed spaces or other potentially hazardous situations.

PLANT HIRE

- Trench & Plate Rollers
- Tandem Rollers : Grit box spreader + Cutting wheel attachment
- Deadweight Rollers
- Pneumatic Tyred Rollers
- Towed Rollers
- Self Propelled Rollers: Padfoot & smooth drum
- Excavators
- Dumpers

SITE ACCOMMODATION & STORAGE

- Tool Storage Units
- Towable units

SPECIALISED

- Surfacing Plant
- Dust Suppression
- Solar Solution
- Lighting

OVER 15 YEARS OF INDUSTRY EXPERIENCE

Established in 2006, we are a **Civil Engineering** company based in Leyland and operates primarily across the north west region.

We offer infrastructure and highway maintenance works, including street lighting and have history working with **local authorities, housing developers and civil engineering contractors**. We take pride in the work we do in the local community.

Acquired by Fox Group in 2021: we can provide a full range of services, creating a **one stop solution for all your contracting needs**. With our offices based in Leyland, we are in an ideal location to link up with other companies part of the group and assist our clients in providing a full inclusive solution to any groundworks and civil engineering projects. We bring a **new aspect to the group** with capabilities to undertake a broad range of infrastructure projects.

SERVICES WE OFFER:

- Civil Engineering Works
- New Drainage Installations
- Drainage Repairs and Maintenance
- Street Lighting Installation and Maintenance
- Utility Works including Final Reinstatement
- Highways Repairs and Maintenance
- Civil Works Associated with the Adoption of Highways, including Section 278 and Section 38 works

CONTRACTED MAINTENANCE

We can undertake a comprehensive range of civil engineering projects and provide contracted maintenance works for clients from the **public and private sector**, local authorities and businesses.

Our team of qualified and experienced operatives have a wide range of knowledge and experience in the construction and civil engineering industry. Paired with our **versatile fleet** including a range of vehicles, plant and specialised equipment we provide quality service.

INFRASTRUCTURE

Offer a **wide range of infrastructure projects**. Our expertise, scalability and plant equipment allows us to provide a fully inclusive self-delivery service making the process easier for our clients. We offer a variety of projects from individual contracts to large scale frameworks.

- Utility Diversions
- Roads And Highways
- Rail Infrastructure
- Bridges
- Earthworks
- Building And Refurbishment
- Water Retaining Structures
- Reinforced Concrete Structures
- Drainage
- Flood Defence

HIGHWAY & STREETWORKS

We provide an in-house, full-service solution. Our experienced in-house operatives allow us to provide a specialist service which is **better value for money, well managed and efficient**. We carry out many access roadworks for private and commercial clients.

- Kerbs
- Footpath works
- Surfacing.
- Highway maintenance and repairs including;
- Carriageway patching
- Flagged
- Block paving
- Drainage repairs including gully replacements

ENVIRONMENTAL & PUBLIC REALM

Working with local businesses and councils, from **concept to completion**, our aim is always to deliver exceptional **green spaces** and areas that mature alongside the communities they serve. We respect both the general public and the environment whilst undertaking any maintenance or repair work. It is essential to the **development and sustainability** of our public areas that we invest in making safe, clean environments for people to live and work in.

- Public streets and footpaths
- Pedestrianisation
- Parks and Play areas
- Rural and Conservation areas
- Countryside routes

PLANT HIRE WITHIN THE LONDON AREA

Based in London (West Drayton) we offer plant and equipment hire. We have a great fleet of **high-quality** plant machinery available for both trade, commercial and domestic clients to hire. All our machines are well maintained and serviced regularly, which allows us to provide a **reliable service** to each of our customers.

Where possible, we offer a **same-day delivery service**. Signing a partnership agreement with Fox Group in 2023, we will work together with the vast range of plant available. Our partnership will allow Fox Group to expand operations into London and the surrounding areas at attractive rates, opening doors to **new customers and connections**.

From one-off private hire to ongoing trade contracts, we provide top quality machinery and plant for hire at very competitive rates. The machines for hire are easily recognisable with the combined logos of both Ashville and Fox Group. We are extremely excited for this **new partnership**.

PLANT AVAILABLE:

- Excavators (electric available)
- Dumper: (electric available)
- Material Handler Hire
- Loading Shovel Hire
 - Electric Equipment Hire
 - Dozer Hire
 - Crusher Hire
 - Tractor Hire
 - Trailer Hire
 - Roller Hire
 - Attachment Hire
 - Ashville Aggregates
 - Grab Hire
 - Tipper Hire
 - Muck Away
 - Ready Mix Concrete
 - Ready Mix Screed
- Concrete Pump Hire

TIPPER RENTAL & AGGREGATE SUPPLIER

Established in 2014, we provide tipper rental and we supply a **range of high quality aggregates**, including **recycled aggregates**, at competitive prices.

We also provide professional **site clearance services**, for an increasing number of satisfied clients across Derbyshire, Yorkshire, Manchester and the North West. Acquired by Fox Group in 2023, Fox Group welcomes the boost to the existing fleet of vehicles, and recycled aggregates supply. The acquisition also expands the groups ground-cover nationally.

We are experienced working with a diverse range of construction companies, building contractors and groundwork companies, and have the ability to run vehicles 7-days-a-week. All our drivers are **fully trained, highly experienced, diligent and polite**.

As part of Fox Group, Tipworx will now be able to offer the group's further services, including plant hire, to their existing customer base.

SITE CLEARANCE & DEMOLITION

We have an extensive range of heavy and light trucks suitable for **commercial site clearance** and **demolition work**. Our professional team will clear waste from your site, using a fleet of modern tippers.

- Clearance of builder waste
- Site clearance
- Commercial waste disposal
- Recycling of waste
- Waste disposal services

AGGREGATES

Offering a **wide range of materials** from MOT Type 1 to decorative aggregates, and we also offer a range of recycled aggregates.

TIPPER RENTAL

We maintain our fleet to the highest standards. Our rental vehicles are supplied clean, fuelled and ready for the job in hand. They are fully insured for any UK driver over the age of 25 with clean license.

WOODWASTE

WASTE MANAGEMENT

UNIQUE WASTE MANAGEMENT SOLUTIONS

As licensed waste carriers: we provide our waste management solutions throughout Blackpool and surrounding areas. Over the years we have built a strong long-standing relationship with companies within the group, the 2022 acquisition by Fox Group made perfect sense. Together we build on our already strong Blackpool presence, as well as **increasing the scope of services within the group**.

- Inert Waste Disposal
- Recycling
- Soil Supplies
- Aggregates
- Licensed Tipping facilities for active waste and inert waste
- Licensed Waste Transfer Station
- Fully equipped recycling centre
- Producers of Recycled Aggregates

MONKS TRAINING SERVICES

MTS - ACCREDITED CONSTRUCTION & HEALTH AND SAFETY TRAINING

CONSTRUCTION TRAINING

We provide **accredited training** for a variety of different skills required within the construction industry. We were acquired by Fox Group in 2023. This move made perfect sense as we are able to continually provide the essential training for those working within the group and offer training to wider clientele.

At Monks training services we pride ourselves on the **quality** of our training but also the amount of time and care we put into looking after our clients. We are happy to help out with any problems and give advice where we can.

With over 15 fully qualified CPCs, NPORS & In House Trainers and Testers on our books, we take pride in being able to provide quality **training for individuals as well as large scale companies.**

Our purpose built plant training centre has room for all types of training and classrooms for hire. We can provide training facilities that are **designed to replicate a modern construction site**, we feel this keeps the candidates relaxed and in the right frame of mind to succeed on their chosen course.

Situated at Junction 28 off the M6 at Leyland, and in **easy reach** of the M61 and M65, our purpose built training centre could not be better placed.

All our courses providing the **required certification** after successful course completion.

CPCS:

- CPCS/ NOCN Job Card Accredited
- Red, blue and renewal available
- Located at our purpose built training centre & grounds

NPORS:

- NPORS operator registration card
- Carried out at our training centre & grounds, or at your site (provided that it meets the test criteria set out by NPORS)

NPORS/CSCS Card for individuals have successfully attended an NPORS recognised health and safety course.

NVQ

All work based—we **minimise disruption to your working day.** An assessor, will visit you on site and remain your contact until your Qualification is complete.

HEALTH & SAFETY

- Accredited Highfield First Aid Centre
- E-Learning Courses
- Short-duration Health & Safety classroom based training courses that are inclusive of many different industries

CITB

- CITB Site Safety Plus (SSP)
- Designed to give all individuals (from operatives to management) the skills and knowledge they need to progress within the industry

MPQC

- Fully accredited to offer the MPQC/SPA Contractor Safety Passport for Mineral Products

IN HOUSE:

- Plant training and testing
- Our testers provide the same high standards of training and testing—working no differently than if we were meeting awarding body guidelines.

On completion of in house training candidates receive a 'Monks Training Services Certificate' and can receive cards, if requested.

WE ALSO OFFER:

- Asbestos Awareness
- Safety In Excavation Training
- Confined Space Training
- Quick Hitch Awareness
- Fire Awareness Training
- Vehicle Banksman Training
- Abrasive Wheels Training
- Manual Handling
- First Aid At Work
- Emergency First Aid At Work
- Cable Avoidance- CAT & Genny Training
- H&S Awareness Training
- Height Safety Awareness
- All Plant Training

Visit our website to explore the vast range of our training.

UNIQUE SERVICE TO THE FOX FAMILY

At Celplas PVC, we are **specialists** in PVC maintenance free building products. Including UPVC fascia, soffit and guttering. Trade bathrooms, trade windows and our exclusive range of internal decorative PVC cladding panels for bathroom and kitchens. We bring a different aspect to the Fox name, extending capabilities and widening our client scope.

BATHROOM CLADDING:

PVC Wall Panels, Contract Wall Cladding, PVC Ceiling Cladding, Shower Wall Panels, Fixings Adhesive, Finishing Trims.

COMPOSITE DECKING:

Offering three different decking colours with all the necessary trims and fittings to ensure that you have a **high quality end result**.

Celplas decking is made from a range of recycled and bonding materials, including wood fibres, and PVC. Composite decking can even be recycled after use too, so it's a great choice for the **environmentally conscious consumer**.

FASCIA & SOFFIT

We provide a range of high quality, **visually attractive** fascia and soffit **solutions for any property**, old or new. We provide: Cover Boards, External Cladding, Replacement Fascia, soffit Boards and Window Trims.

PVC GUTTERING

With a variety of sizes and types of guttering we have something to suit any specifications and requirements.

Our PVC guttering is **budget friendly** and incredibly **long lasting** and durable: you could save time and money without a commitment to maintenance. Our range of guttering is selected to give the best possible results in terms of appearance and quality.

We offer Half round, Square and OG/OGEE.

TRADE BATHROOMS

Provide attention to detail, subtle design features and stylish solutions. **We have something for everyone on any budget.**

Our trade bathroom products range from taps and toilets, to shower cubicles. Bathroom furniture, and complete bathroom suites to make your job easier.

WINDOWS & DOORS

We offer: UPVC windows, Bi-Folding doors, Composite doors, UPVC French doors, Sliding sash windows and Conservatories.

FIXINGS & ADHESIVE

Cladding and poly pins.
Silicone and Gripplas adhesives.

LED MIRRORS

A range of LED mirrors for bathrooms or wherever you see fit within the home.

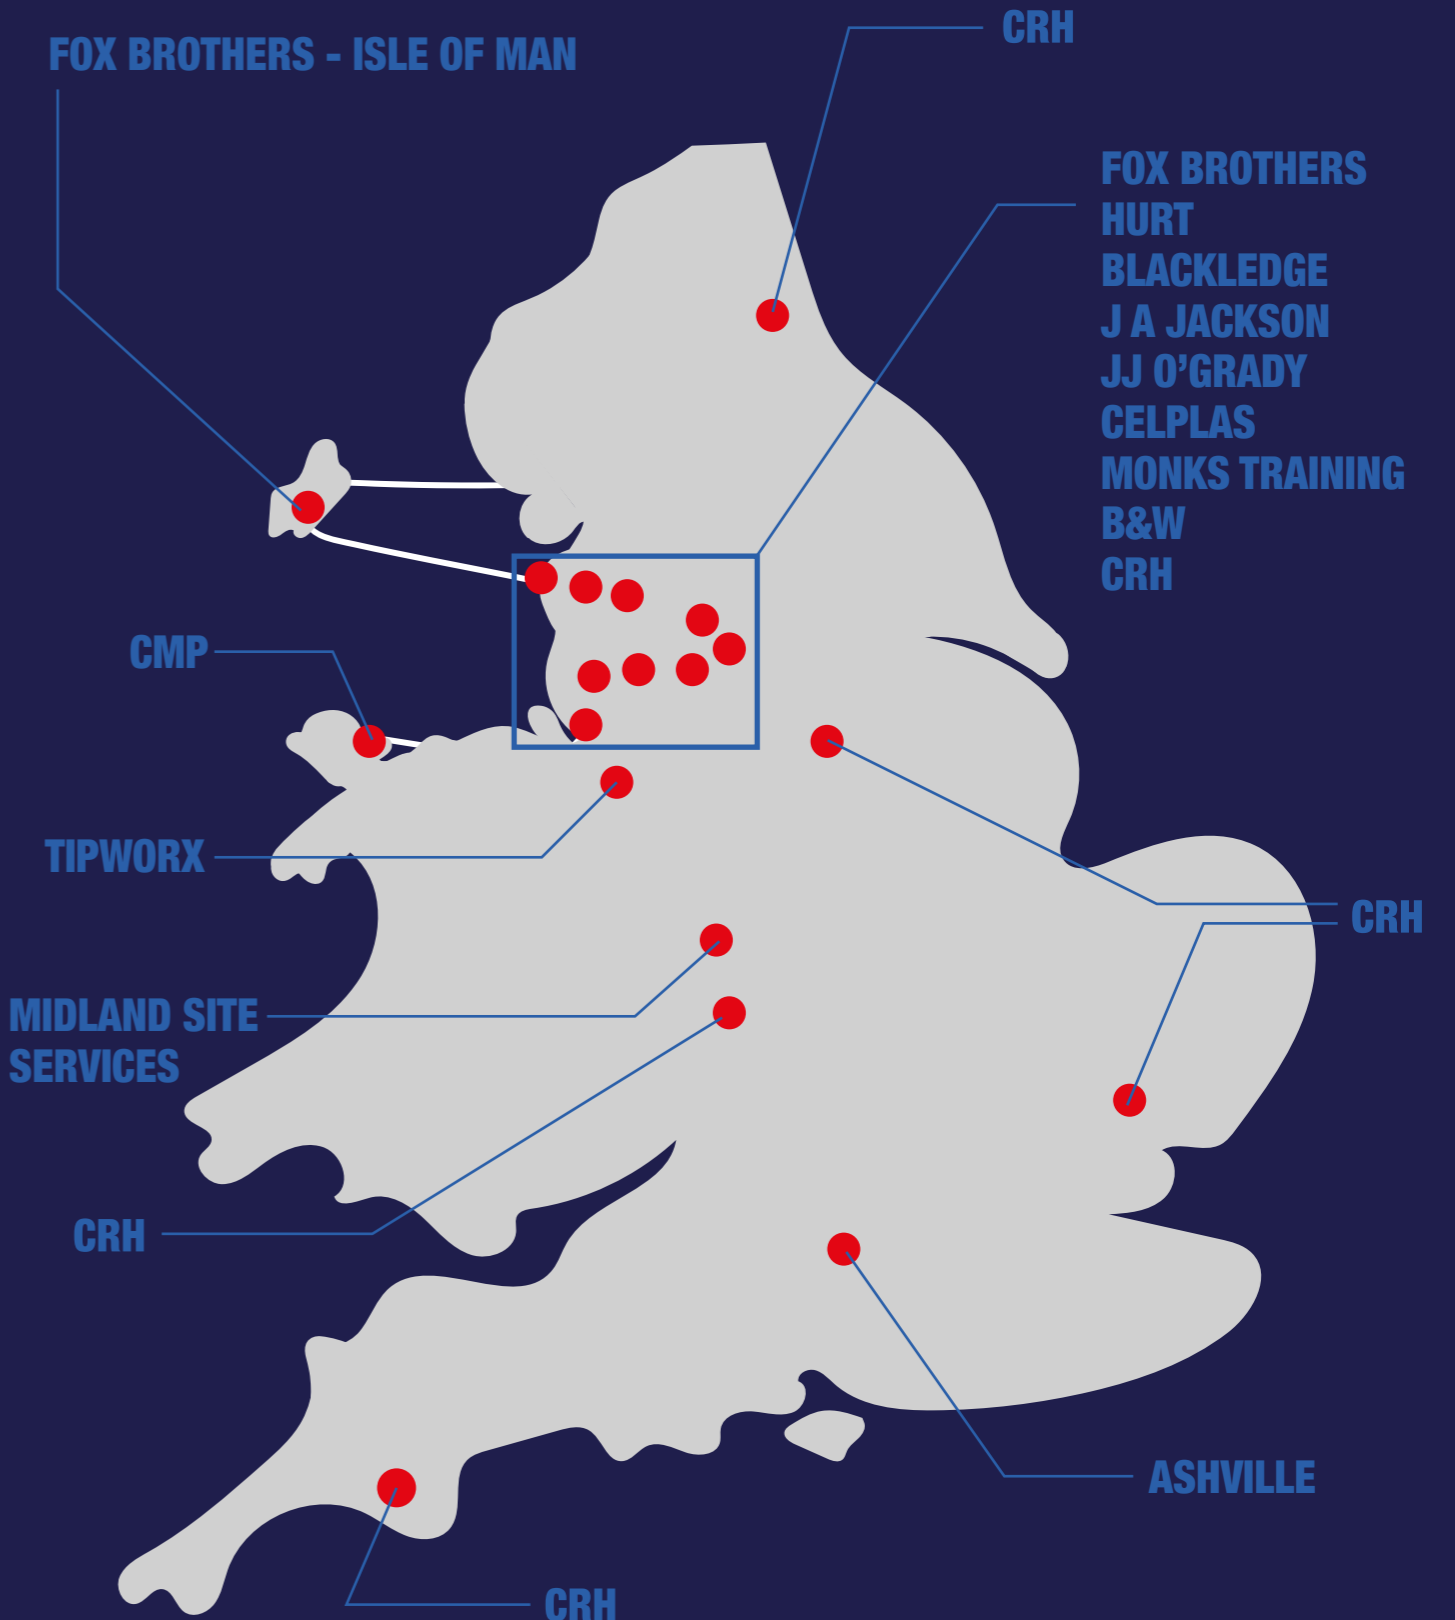

BASES STRETCHING ACROSS THE UK

As Fox Group we operate from a number of bases across the UK. A lot of the group bases are in and around the Blackpool area however, we have excellent connections all over the country which enables us to cover huge ground for anyone who requires our services.

Some sites are run independently through members of the group and others are run by the group as a whole. All providing the same standard of high quality service. More in depth information can be found on within the contact page.
